New York Stock Market

New York, August 25.—Prices of stocks crumbled away again to-day and the many low records registered for the movement practically composed the entire active list, not to monition many issues of lesser importance. The selling was very heavy in the first hour and, as has been the case recently, converged around United States Steel, which broke below 70 after repeated efforts to dislodge it from that figure. In fact, the short interest, which was unusually aggressive and active, made this the special object of its attentions, sales of the stock in the early session comprising almost 32 per cent, of the whole.

acter which has been the most menacing feature of the market all through the month. Rumor attributed some of the day's liquidation to the pressing necessities of the large speculative interests, but gossip of that kind has been prevalent, and not without cause, all through the declining period. It is a matter of general belief that large blocks of securities of the batter class have been taken over recently by the hankers in private settlement of bull accounts. This is quite in keeping with similar salvage proceedings last year, the difference being, if reports are to be credited, that this year's operations were on a much more extensive scale,

being, if reports are to be credited, that this year's operations were on a much more extensive scale.

In the financial district to-day conjecture and discussion ran the gamut of many things, including the critical railroad situation, the drooping tendency of the European markets, particularly London, poor or indifferent railroad earnings, which give especial point to the retrenchment program of the transportation companies, and the state of trade in the steel and iron industry. Advices from Pittsburg, and other steel centres tended to confirm the discouraging statements issued by trade journals yesterday. At the local offices of the Harriman lines it was stated that no new turn had taken place in the labor situation, but dispatches from the Middle West were mostly of an unfavorable tener, indicating that the fallroads probably would refuse to meet the demands of the unions. From present indications no definite developments are likely until next week.

The market was at its weakest in the last hour, when another drive against the Harriman and Hill issues, Reading, United States Steel and the metal stocks sent the list lower. Sellins increased as prices declined, but the recession was at no time disorganized. Its sources, except for a renewal of bearing person to a senewal of bearing person.

dation, to the buying, the origin of which was no less baffling. In the final dealings the Harrimans recovered a part of their declines, but the movement elsewhere was uncertain.

The closing was dull and heavy, with a vast preponderance of net losses, including a 8 per cent. decline in St. Paul preferred. London sold from 20,000 to 25,000 shares in this market, chiefly Union Pacific, Steel and Amalgamated Copper. Some direct sales for Parls and Amsterdam were reported. A better tone was manifest on the Parls bourse, but Berlin was heavy on unfavorable advices from London. The statement of the German Bank shows a decrease of \$11,000,000 in loans and discounts, and a gain of \$7,000,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000 in gold, indicating that institution is fortifying its position middling under the second state of \$1,000,000 in gold, indicating that institution is fortifying its position much after the manner of the British \$2,000,000 in gold, indicating that institution is fortifying its position middling under the second state of \$1,000,000 in gold, indicating that institution is fortifying its position middling under the second state of \$1,000,000 in gold, indicating that institution is fortif

COTTON MARKETS.

COTTON MARKETS.

New York, August 35—There was a very sharp advance in the cotton market, owing to increasing fear of a builts's government crop, report next Friday and covering by helated August shorts. That position sold up to 12.65, or 51 points higher. While new crop months showed gains of from 27.53 points on points in the late trading, with closing prices firm at a net advance of 25 points on later months in response to higher Livers of 1 points on later months in response to higher Livers and the state of the condition reports from Alabama and Georgia.

57,000,000 in gold, indicating that institution is fortifying its position much after the manner of the British and French banks.

The most interesting railroad report submitted was that of Atchison, which showed a loss of \$562,000 in net for July. A number of gross returns from Southwestern roads for the third week of July showed declines.

Bonds were irregular, with total gales, par value, amounting to \$1.

764,000. United States government bonds were unchanged on call.

Total sales for the day, \$95,400 shares.

Weekly Review of Trade.

New York, August 25,—R. G. Dun & Company's weekly review of Christian.

Weckly Review of Trade.

New York. August 25.—R. G. Dun & Company's weekly review to-more row will say: Further improvement appears in many lines at Boston, and conditions generally are distinctly hetter than a white ago. Dry goods dealers report a fair volume of business in wash goods and demand from retailers is steadly expanding. Textile conditions are brighter, and the outlook for cotton and woolen mills is more favorable. Trading in wool is more active, with the market stronger. Property sales are in fair volume. Not much is doing in clothing or shoes, and demand for leather is moderate.

administration.

fatherless and widows.

5. Our charges are moderate.

Interview and correspondence invited.

prices are advancing. Sales of wool some improvement. Slowly increasing wholesalers receive a fair volume of orders for fall and winter goods, but merchants are still conservative and confine operations as close as possible to actual needs. Wholesale trade is quite active at Baltimore, and there is a marked feeling of optimism in

is a marked feeling of optimism in evidence. In dry goods and notions there is a fair amount of business, and clothing shows improvement, whereas the movement of footwear is somewhat disappointing.

Factories making men's underwear, overalls and work shirts are well supplied with orders. A heavy cotton crop is expected to stimulate business materially at Louisville, but current trade is generally quiet. New Orleans reports that continued rainy weather has had an adverse effect on practically all retail lines, and has also had a tendency to restrict country trading.

Cotton Statistics.

Liverpool, August 25.—Following are the weekly cotton statistics:
Total sales, all kinds, 22,000 bales, of which American, 14,000.
English spinners' takings, 8,000

English spinners takings, 8,000 bales.
Total export, 2,000.

PREPARING FOR FAIR.

in October.

[Special to The Times-Dispatch.]
Amherst, Va., August 25.—Preparations are already under way for the county fair, which will be held at Amherst on October 18, 19, and 20. The feature of the third day will be the grand tournament and bail, in which forty knights in full costume will narforty knights in full costume will participate. The members of the Boys'
and Men's Corn Demonstration clubs
are somewhat discouraged about the
outlook for prize corn, the drought
having injured the crop to some extent, though it has improved since the
recent rains.

Farmers from different sections of
the county report that the outlook
is good for a fine tobacco crop. However, on account of the dry weather,
it will ripen rather later than is usually the case.
